His name is Valerious le Vaillant - the Everdragon's french cousin twice removed. He has been rumored to be one of the stronger members of the Everdragons large family and after seeing the Heroes' potential, he seems like he's ready to fight against them with much expertise!

MP: 3333  
MP: 3333

**BASIC ATTACKS**

- Horn Rush: The giant lizard attempts to charge at his opponents with his trusty horn stuffed on his face. Attacks a single opposing party member.
- Emetstone Regrowth: Valerious excretes a baguette encrusted with fire and brimstone at the opposition. Single attack.
- Crossant Lava: Valerious stomps on the ground as two columns of lava shaped like a crossant attacks from underneath the opponents. Hits two characters in random.
- Broken Babbling: Valerious starts to babble in broken english, boring the opponent but saving their MP slowly. The Official Fight Against the Everdragon Strategy Guide mentions that muting your TV set or PC might be the only way to stop the attack.
- Piffre Poodles: After Valerious hits the 333 HP mark, he gets mad and manages to wildly stomp considerably as poodles on fire manage to roll into the stage. Quick reflexes are necessary to dodge the attack.
- Deathroll: Also during the 333 HP mark, Valerious manages to charge his energy to the utmost degree and manages to roll into a ball of fire, attempting to flatten and roast his opponents alive at the same time.

Meanwhile at the Everdragon's Lair....

Sorry to disturb yoi my Lord, but the foolish adventurers are inching closer to our lair and I fear that it would be most beneficial to send one of our Guardians to destroy them. I would choose myself, but I'm sure you have an idea of who you'd like to send into battle. Currently available are...

UK Kraven Dick Maltacous TDC Flumencio (Din) ???????????

Ishobed Maldobon Kraven Dick, the mind-bending Sorcerer of all things lewd and sexual who possesses the 4 Sacred Orb of Unlido Domination and the Elven Wand of Flamboyant Ecstasy. Remember to never look into his eyes, my Lord, because his Medusa-like gaze can make even the heartiest warrior his eternal love slave.

Maltacous, the Dark Custodial Alchemist who after spending 4000 years working the day shift at the Graveyard and the graveyard she at the Day Inn has mastered every intricacy of bodily fluids. This allows him to craft GDKK poisons and airborne toxins to paralyze, daze, hypnotize and incapacitate his foes.

Flumencio, Lord of the Tapered Edge, an incredibly handsome Blademaster who's dashing hairstyle and grooving habits make him incredibly intimidating and charming even though he's small in stature. He'll be most interested in fighting the adventurers to gain revenge on his rival, Angus MacRibbonus III for taking his wife and more importantly, his favorite pair of grooming scissors (4 Dearest Masterwork Shears of Man Beauty).

Our 4th Guardian, as you know matter, is already among the adventurers as we speak. If all goes according to plan, he'll lead those fools right into our trap.

Who among the adventurers is the traitor???

Who will the Everdragon send to intercept the adventurers???

Stay tuned to find out!

Draped up and dripped out.

On the first day, God said "Celebrate the cult of SRK, or I shall throweth you into the Hell of SF1." And on the second day, God created Ryu, and told him "Thou shalt kicketh ass. And on the third day, God created Ken, and He said to Ryu, "I made him so that thou shalt not kicketh too much ass."

I know it's been said a lot of times, way too many times in fact, I have to say though... in this state there is no other word to justify describe this thread. For once, this word will actually have meaning and it won't be gross overstatement like all the other times it's been used.  
This thread, this fucking thread... is epic.  
Seriously, jokingly and any other -kingly there is.

agreed  
I was going to make a character, but now I shall play the role of the audience, because I don't know if this epic tale could get any more entertaining.
