CONTENTS

Preface v

About the Author ix

Chapter 1 Introduction 1

Part I Consistent Model Specification Tests 49

Chapter 2 Consistent Model Specification Tests 51

Chapter 3 Model Specification Testing of Time Series Regressions 121

Chapter 4 A Consistent Conditional Moment Test of Functional Form 241

Chapter 5 Asymptotic Theory of Integrated Conditional Moment Tests 281

Chapter 6 Integrated Conditional Moment Tests for Parametric Conditional Distributions 347

Part II Semi-nonparametric Modeling and Inference 417

Chapter 7 Semi-nonparametric Interval-censored Mixed Proportional Hazard Models: Identification and Consistency Results 419
xii

Contents

Chapter 8      Semi-nonparametric Competing Risks Analysis of Recidivism 465
Chapter 9      Semi-nonparametric Estimation of Independently and Identically Repeated First-price Auctions Via an Integrated Simulated Moments Method 517
Chapter 10     Consistency and Asymptotic Normality of Sieve ML Estimators under Low-level Conditions 529
