Dear Editor,

I am writing to express my concern regarding the issue of ticket distribution for Penn State football games. As a member of the student body, I believe there is a need for immediate action to address this problem.

Firstly, I would like to express my appreciation for the efforts of the athletic department in making football tickets available to students. However, I feel that the current system is failing to meet the needs of the student body.

One of the main issues is the time it takes to purchase tickets. Many students have reported waiting for hours to secure their seats. This is not only frustrating but also a significant time commitment that many students do not have.

Another issue is the distribution of tickets. I have noticed that tickets are not being distributed equally among students. There are instances where only a small number of students are able to purchase tickets, while others are left without.

I believe that the current system is not only unfair but also inefficient. The athletic department needs to explore alternative methods of ticket distribution that are more accessible to all students.

In conclusion, I urge the athletic department to take immediate action to address these issues. I believe that by doing so, they can ensure a more equitable and efficient ticket distribution system for future football games.

Sincerely,

[Your Name]
