Materials List:

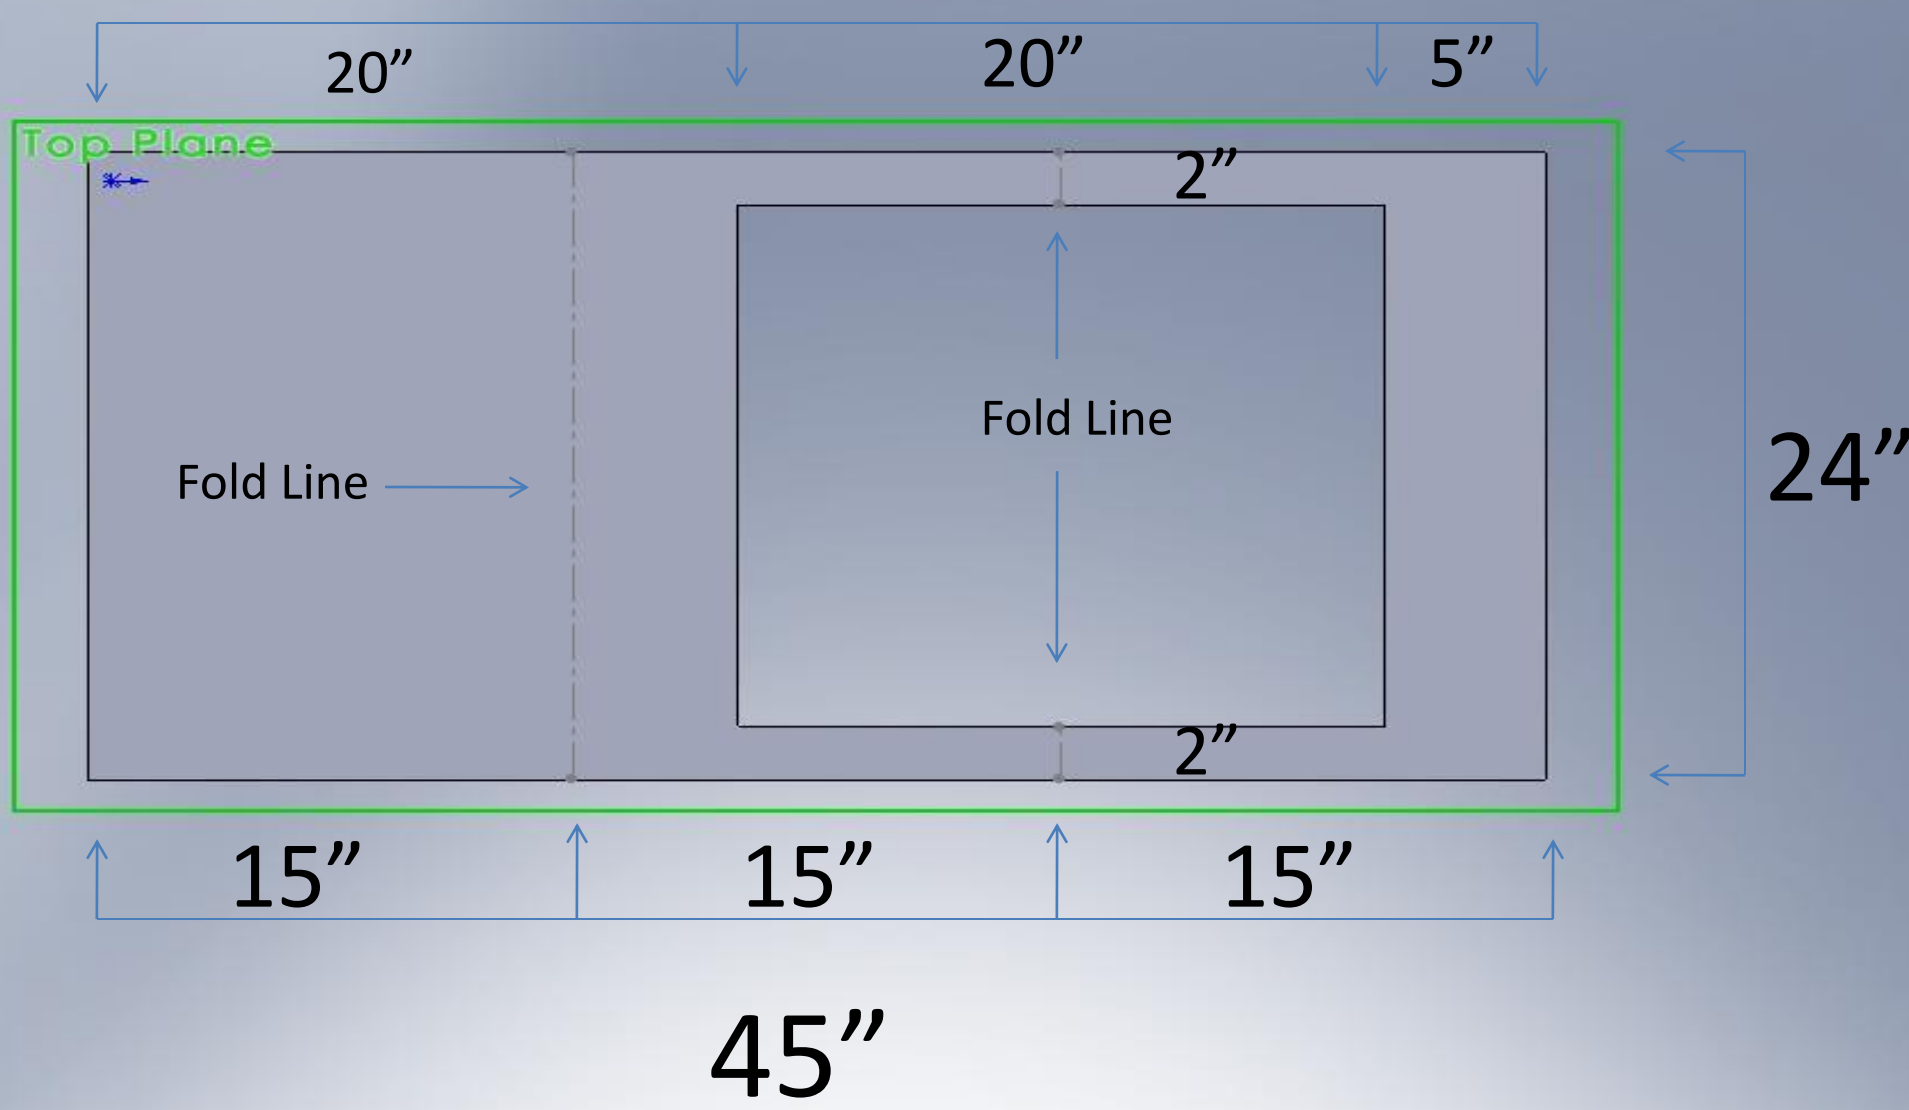

- 1 Sheet of 12/37" Thick Double Wall Corrugated Cardboard Dimensioned 24"x 45" for Base Construction
- 62 Sheets of 12/37" Thick Double Wall Corrugated Cardboard Dimensioned 25" x 27" for Seat Construction
- 12 Sheets of 12/37" Thick Double Wall Corrugated Cardboard Dimensioned 27" x 32" for Back Construction
- 1 Strip of 24" Velcro to Secure Open Sides of Base Together

Congratulations on deciding to create your very own Eco-Amigo. Upon completion of this chair you will find many positive aspects including strength, durability, and ease of disassembly. This chair is dimensioned perfectly so that it can be a welcome addition to any dorm room. We at NEET and Tidy believe that once you complete the construction of this chair, you will find many uses for it over the course of your college career.

Chair Base (Complete)

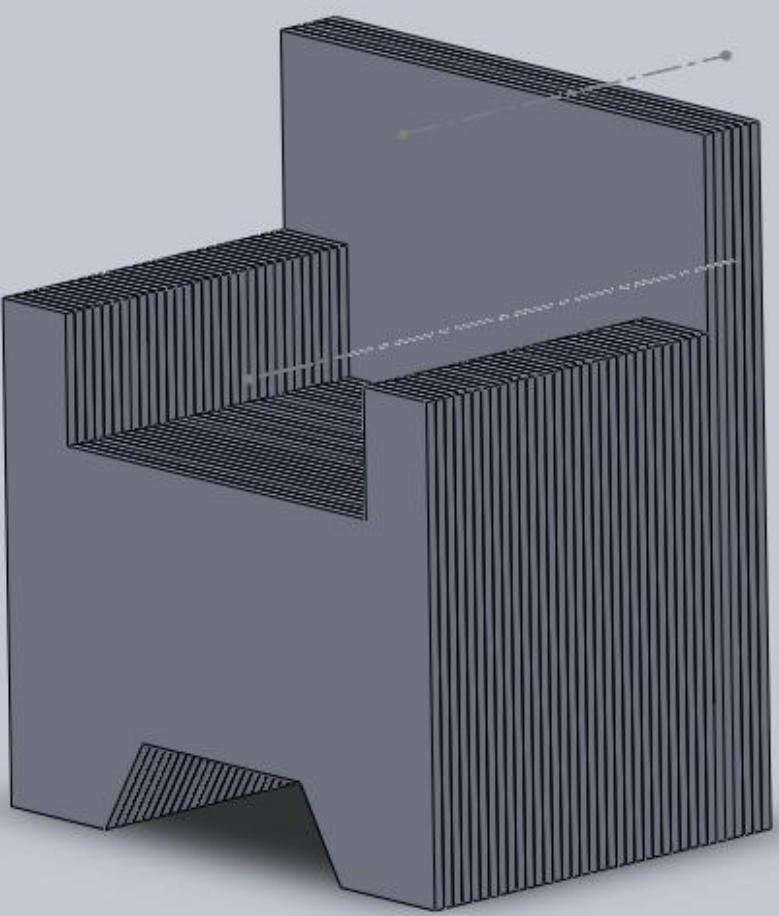

Chair Base (Flat)

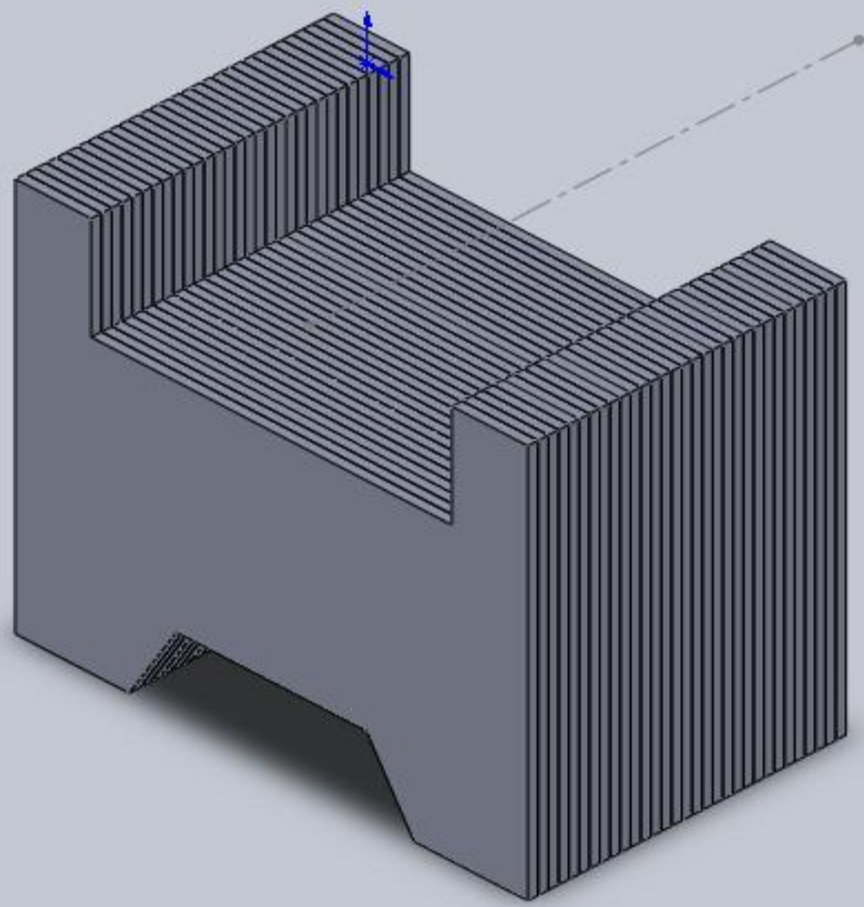

- 1.) Cut flat base piece according to the indicated dimensions
- 2.) Fold base along fold lines so that a triangle is formed
- 3.) Use Velcro strip to adhere to secure the two open sides of the triangle together.

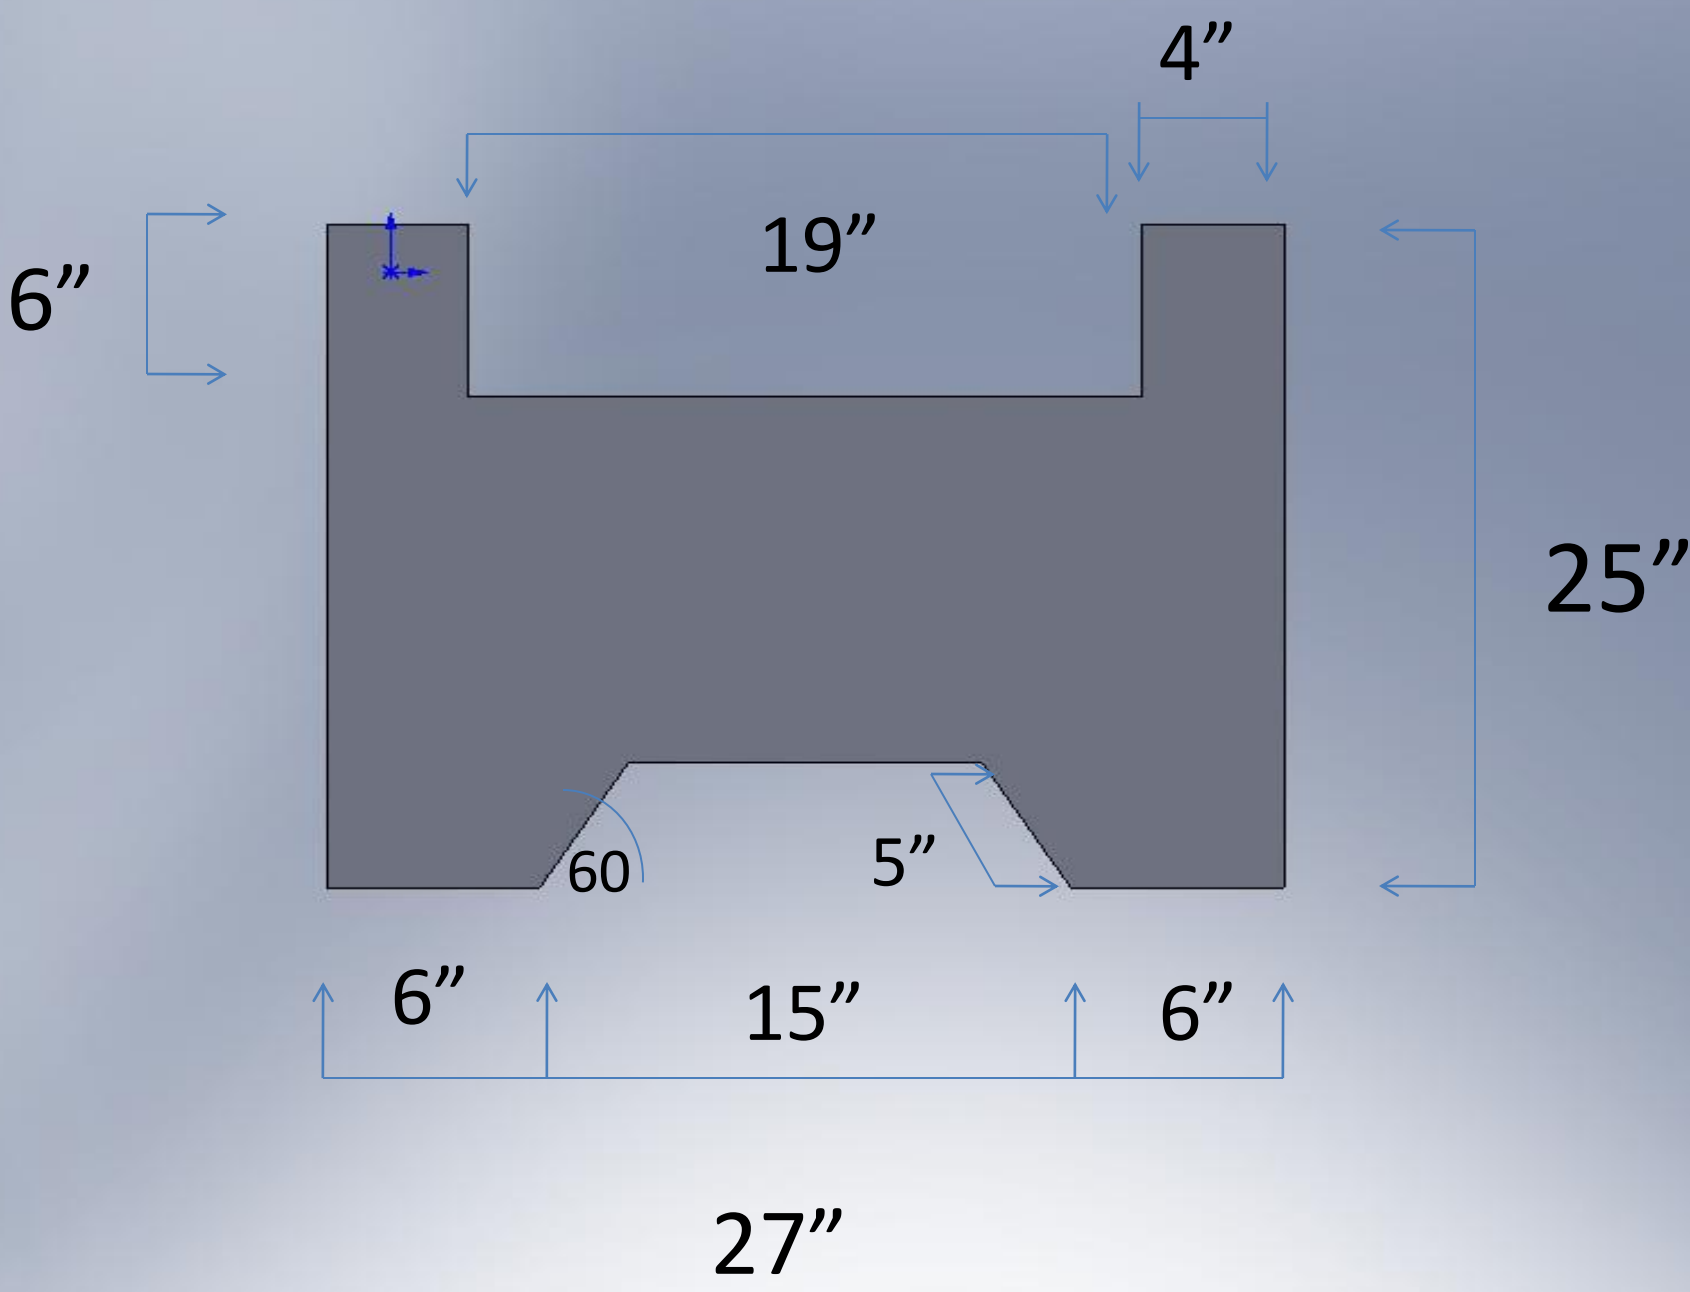

Back-Seat Assembly

Chair Seat (Complete)

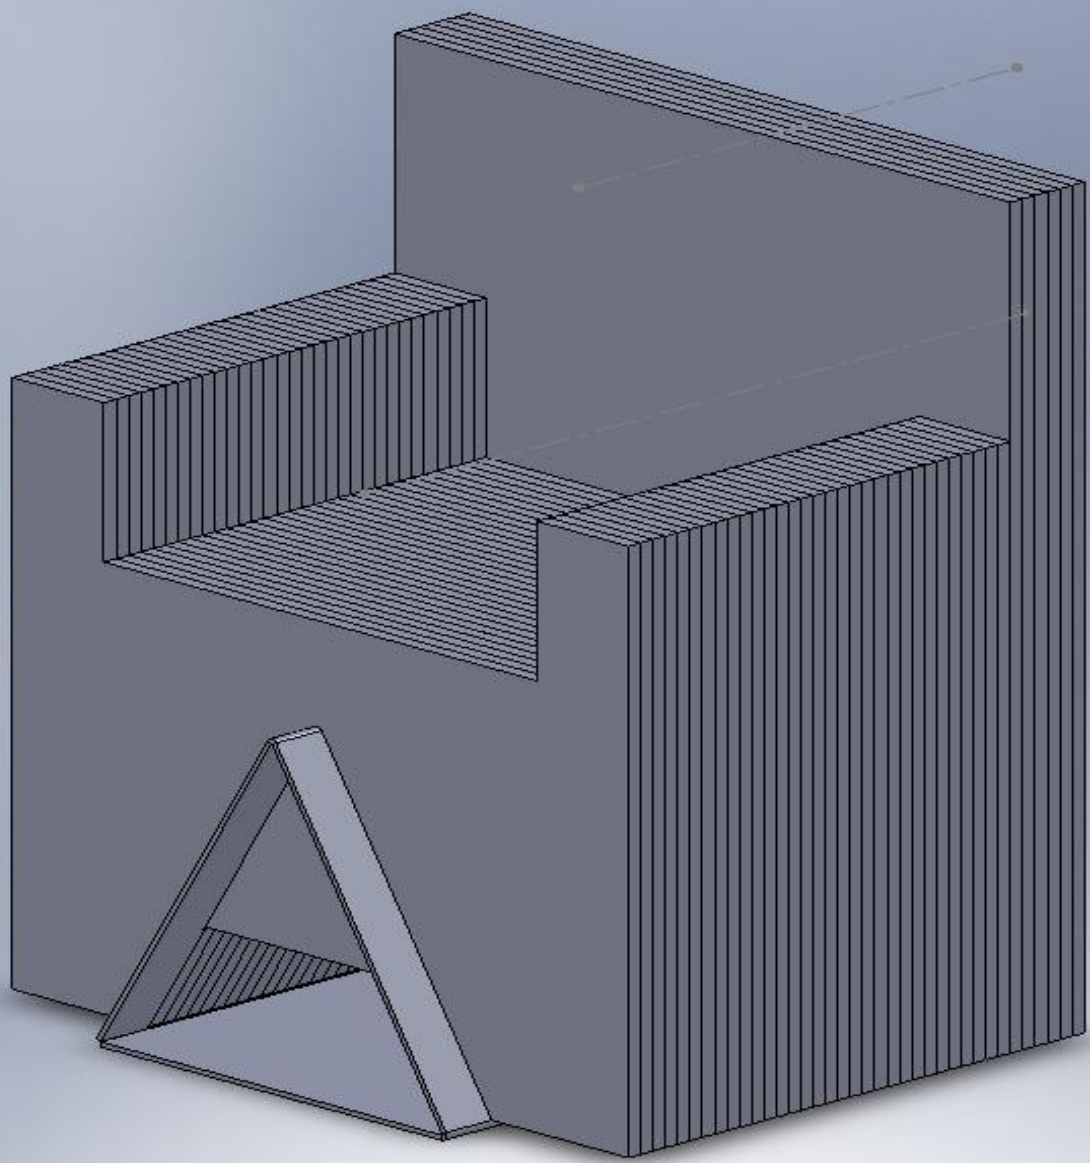

Chair Seat

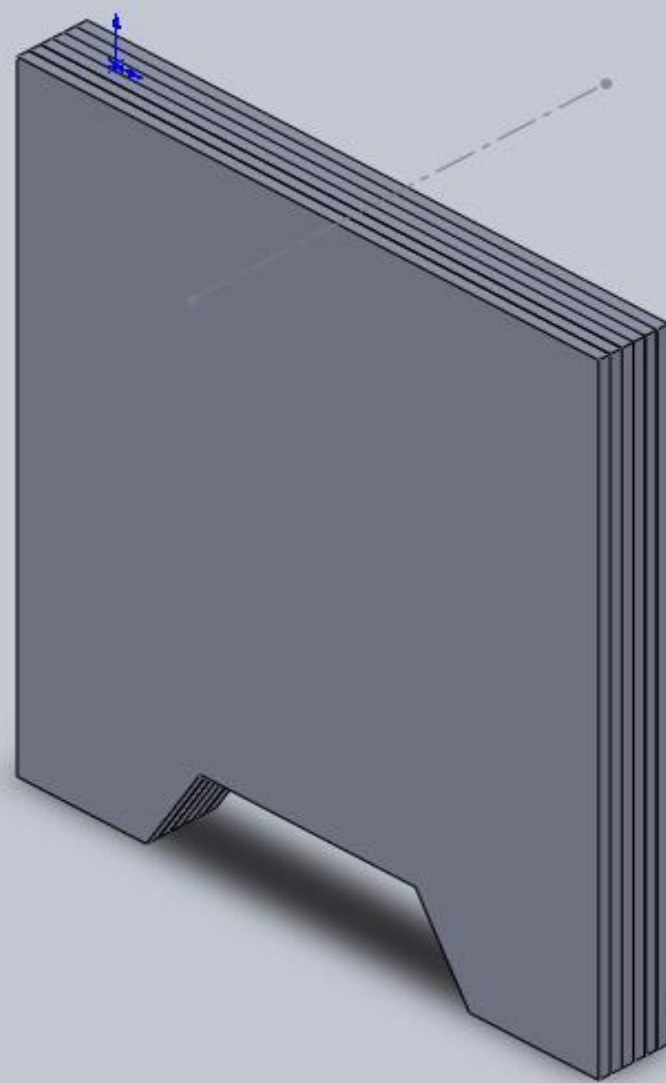

- 1.) Cut 62 sheets of cardboard according to the indicated seat dimensions.
- 2.) Line up all pieces so that the sides and bottoms are evenly aligned.

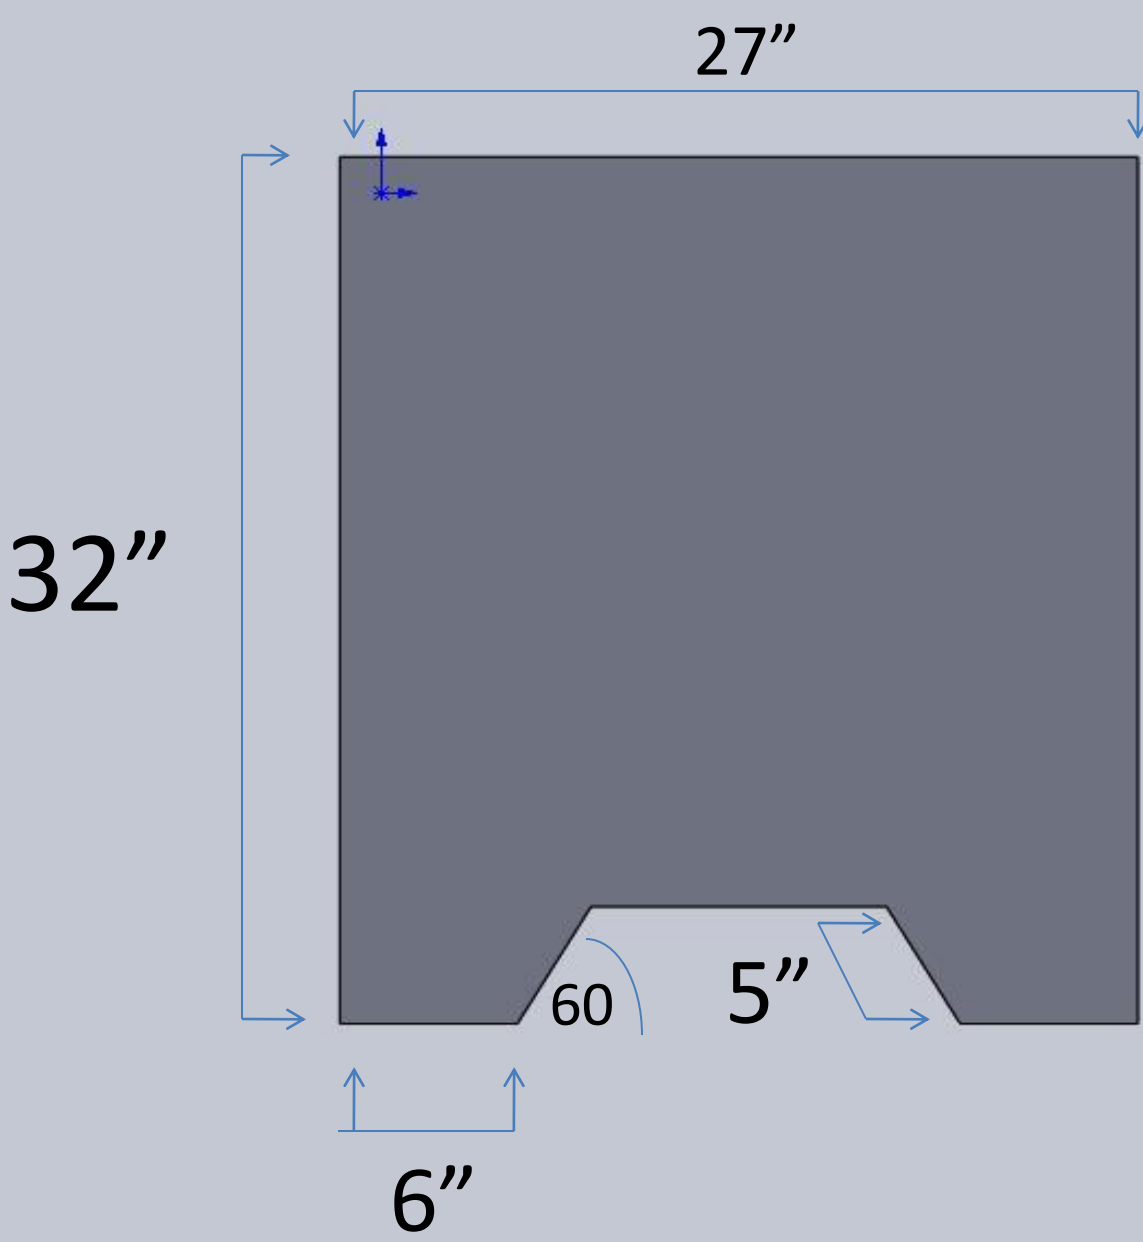

Full Chair Assembly

Chair Back (Complete)

Chair Back

- 1.) Cut 12 sheets of cardboard according to the indicated back dimensions.
- 2.) Line up all pieces so that the sides and bottoms are evenly aligned.

Assembly Instructions

- 1.) Line up all back and seat pieces so that the sides and bottoms are evenly aligned.
- 2.) Insert Seat-Back Assembly into base so that all pieces fit evenly and securely.
- 3.) You are now ready to sit in your new Eco-Amigo!
