

**PATRICK J. DROHAN**

Associate Professor of Pedology  
Department of Ecosystem Science and Management  
The Pennsylvania State University, 116 ASI Bldg.  
University Park, PA 16802

November 2016

Phone: 814-863-4246,  
Fax: 814-863-7043  
Web: <http://soilslife.psu.edu>  
Email: [patdrohan@psu.edu](mailto:patdrohan@psu.edu)

**RESEARCH INTERESTS**

Research in Dr. Drohan's group is currently focused on understanding anthropogenic and climate imprinting on soil genesis and subsequent land use at multiple scales.

**EDUCATION**

- 2000 Ph.D. Soil Science. The Pennsylvania State University, University Park, PA.  
Dissertation: A study of sugar maple (*Acer saccharum* Marsh) decline during 1979 to 1989 in northern Pennsylvania.
- 1996 M.S. Environmental Pollution Control. The Pennsylvania State University, University Park, PA. Thesis: Natural and anthropogenic influences on late spring baseflow chemistry in Pennsylvania streams.
- 1992 B.S. Natural Resource Management. Cook College–Rutgers University, New Brunswick, NJ. Dual Senior Thesis: An examination of fishing industry collapse in Cordova, Alaska and Point Pleasant, NJ.; Soil erosion due to recreational hiking activity at John's Brook Lodge, NY.

**EMPLOYMENT**

2013-present, Associate Professor, Department of Ecosystem Science and Management, The Pennsylvania State University, University Park, PA.

Responsibilities included research, teaching, and community service.

- Research areas included: pedology, landscape change/ecology and restoration, soil and plant interactions, and the merger of soil genesis and hydrology to address environmental questions that increase our understanding of soil development and variability.
- Teaching experience: Soil Genesis, Classification, and Mapping; Urban Soils, Field Soil Practicum, Soil Health, The Co-Evolution of Soil and Civilization (study abroad); Soil Mapping and Land Use; Paleosols.

2012-2013, Assistant Professor, Department of Ecosystem Science and Management, The Pennsylvania State University, University Park, PA.

Responsibilities included research, teaching, and community service.

- Research areas included: pedology, examining soil and plant interactions, applications of soil survey databases, and the merger of soil genesis and hydrology to address environmental questions that would increase our understanding of soil development and variability.
- Teaching experience: Soil Genesis, Classification, and Mapping; Urban Soils, Field Soil Practicum, The Co-Evolution of Soil and Civilization in Scotland; Soil Mapping and Land Use; Paleosols.

2007-2012, Assistant Professor, Department of Crop and Soil Sciences, The Pennsylvania State University, University Park, PA.

Responsibilities included research, teaching, and community service.

- Research areas included: pedology, examining soil and plant interactions, applications of soil survey databases, and the merger of soil genesis and hydrology to address environmental questions that would increase our understanding of soil development and variability.
- Teaching experience: Soil Genesis, Classification, and Mapping; Urban Soils, Field Soil Practicum, The Co-Evolution of Soil and Civilization in Scotland; Soil Mapping and Land Use; Paleosols.

2006-2007, Director, Pine Lake Institute for Environmental & Sustainability Studies, Hartwick College, Oneonta, NY

Responsibilities include outreach, management, research, teaching, and community service.

- ◆ Develop and direct new institute focused on college and community sustainability, and environmental studies research, teaching, and outreach.
- ◆ Develop new curriculum in sustainability and environmental studies.
- ◆ Coordinate management and use of a 900-acre college environmental campus and living-learning community.
- ◆ Provide guidance on college sustainability environmental policy and practices.
- ◆ Liaison to regional and national sustainability organizations.
- ◆ Development planning and fundraising.

2004-2006, Assistant Professor, Department of Geoscience, University of Nevada, Las Vegas, Las Vegas, NV.

Responsibilities included research, teaching, and community service.

- ◆ Research areas included: examining soil and plant interactions, applications of soil survey databases, and the merger of soil genesis and hydrology to address environmental questions that would increase our understanding of soil development and variability.
- ◆ Teaching experience: Geographic information systems, seminar in environmental studies, environmental senior thesis, introductory environmental studies, biogeochemistry, physical geography, and soil mapping.

2003-2004, Assistant Professor, Department of Environmental Studies, University of Nevada, Las Vegas Las Vegas, NV.

Responsibilities included teaching, research, and community service.

- ◆ Research areas included: examining soil and plant interactions, applications of soil survey databases, and the merger of soil genesis and hydrology to address environmental questions that will increase our understanding of soil development and variability.
- ◆ Teaching experience: Geographic information systems, seminar in environmental studies, senior thesis, introductory environmental studies.

2000-2003, Assistant Professor, Shepherd College, Institute for Environmental Studies, Shepherdstown, WV.

Responsibilities included teaching, research, and community service.

- ◆ Teaching experience: soil science, hydrology, advanced geographic information systems, introductory environmental studies, forestry, sustainable agriculture, introductory biology, international environmental policy, and research methods. Incorporated use of WebCT distance education software into courses.
- ◆ Initiated cooperative effort to create a display on soils and society in the National Museum of Natural History, Smithsonian Institution between the Soil Science Society of America, federal and state government, and private industry.

- ◆ Led an annual two-week student exchange program on international environmental policy in Plymouth and Bristol, England (2002 and 2003).
  - ◆ Advised and oversaw 76 undergraduates on senior thesis project design and implementation. Advised honors theses and independent study and research.
  - ◆ Conducted GIS training workshop for county planners from the Eastern Panhandle.
  - ◆ Developed a college farm management plan and worked with local NRCS personnel to improve farm management.
- 1997-2000, Lab Instructor, Introduction to Soils, The Pennsylvania State University, University Park, PA.
- ◆ Taught two sections of lab (24 students each section) each semester and supervised two teaching assistants.
- 1996-2000, Graduate Research Assistant, The Pennsylvania State University, University Park, PA.
- ◆ Collected, organized, and analyzed data on tree growth and health, insect defoliation, atmospheric deposition, precipitation, soil physical and chemical properties, tree mortality, and forest management.
  - ◆ Developed GIS models of sugar maple decline across northern Pennsylvania. Utilized various geostatistical methods.
  - ◆ Conducted or supervised all field work and analytical lab work (physical and chemical soil properties).
  - ◆ Organized summer field program-Northern Pennsylvania Forest Soils Field Trip, May 1998. Cosponsored by the Pennsylvania Association of Professional Soil Scientists.
  - ◆ Delegate to and Public Relations Director for the Penn State Graduate Student Association (1998-2000).
- 1996-1997, Instructor, Wildlife Technology 106, Wildlife Management Techniques, The Pennsylvania State University, DuBois, PA.
- ◆ Designed and taught course with two sections of lab.
  - ◆ 1997-Trip co-leader for field course held in New Jersey Pine Barrens. This was a one-week exploration of birds, flora, and ecosystems in the Pine Barrens.
- 1996, Instructor, Forestry 240, Forest Science/Silviculture, The Pennsylvania State University, DuBois, PA.
- ◆ Designed and taught course with two sections of lab.
  - ◆ 1996-Trip co-leader for field course held in Northern Florida. This was a week-long exploration of birds, flora, ecosystems, and management practices in northern Florida.
- 1994-1997, Guest Lecturer, Fire Science, The Pennsylvania State University Park, PA.
- ◆ Discussed wildland fire fighting techniques and experiences. (3 semesters).
- 1994-1996, Graduate Research Assistant, The Pennsylvania State University, University Park, PA.
- ◆ Collected, organized, and analyzed data on insect defoliation, population, land use, and atmospheric deposition for research watersheds.
  - ◆ Maintained field equipment and monitoring stations with CR-10 data loggers and FW-1 liquid level recorders at five remote watershed sites as part of an EPA long-term monitoring study. Synthesized results from stream gaging stations into an annual data report for the U.S. Environmental Protection Agency.
  - ◆ Collected monthly and storm event water samples for stream chemistry analysis and performed monthly stream flow gaging. Collected precipitation measurements, including bulk precipitation, precipitation intensity, and snow depth.

- ◆ Vice President (1995) and member (1994–95) of the Penn State student chapter of the American Water Resources Association.
- 1994, Forestry/Wildlife Technician, The Pennsylvania State University, University Park, PA.
- ◆ Created woodcock and ruffed grouse habitat.
  - ◆ Conducted field work involving extensive chain saw practices, habitat design and enhancement, trail maintenance, and sign construction.
- 1993-1994, Hydrology Technician, The Pennsylvania State University, University Park, PA.
- ◆ Assisted in data collection, development, and implementation of a hydrologic budget for a remote watershed.
  - ◆ Installed, maintained, and used hydrologic equipment, such as stream flow gaging instruments, sampling wells, stream gages, neutron probes, FW-1 liquid level recorders, ISCO automated samplers, and soil lysimeters.
- 1993-1994, Forestry Technician, The Pennsylvania State University, University Park, PA.
- ◆ Conducted field work involving forest management, stand improvement, and timber cruising and grading.
  - ◆ Assisted in preplanning and burn operation for prescribed burn; led student fire crew.
  - ◆ Assisted in University research projects with forestry department faculty; conducted forest mapping and stand volume calculations.
- 1993, Engine Foreman, Pike National Forest, South Park Ranger District, Fairplay, CO.
- ◆ Coordinated, scheduled, and supervised personnel engaged in wild land fire fighting.
  - ◆ Oversaw activities of up to 10 fire fighters and the operation of initial attack engine and equipment. Assisted in preplanning and burn operation for prescribed burns.
  - ◆ Composed and presented presentations to forest visitors on fire fighting and prevention.
  - ◆ Conducted Level II law enforcement in the national forest.
- 1992, River Ranger, Bureau of Land Management, Kremmling Resource Area–Craig District, Kremmling, CO, through the Student Conservation Association.
- ◆ Patrolled the Colorado River and adjacent trails.
  - ◆ Conducted compliance checks of rafting companies.
  - ◆ Delivered presentations to the public on safe boating practices.
  - ◆ Assisted in wild land fire fighting throughout Colorado and Wyoming. Assisted in prescribed burning operations.
- 1991, Assistant Hut Master, Adirondack Mountain Club, Lake Placid, NY.
- ◆ Assisted in supervising staff and scheduling activities at back-country lodge.
  - ◆ Lodge naturalist: educated guests on the natural history of the Adirondacks.
- 1990, Information Center Staff Worker, Adirondack Mountain Club, Lake Placid, NY.
- ◆ Educated the public on safe back-country hiking and camping practices, forest preservation, and the identification of flora and fauna.
- 1989, Research Technician, Department of Forestry, Cook College, Rutgers University, NJ.
- ◆ Maintained *Pinus strobus* research plots and *Paulownia tomentosa* greenhouse study.

#### **GRANTS and SUPPORT RECEIVED**

2016. Pennsylvania DCNR, Bureau of Forestry. \$293,240. Fertilization and liming effects on northern Appalachian soils, flora and wildlife. Diefenbach, D.(PD) with co-PIs Marc McDill (Ecosys. Sci. and Mgmt.), Patrick Drohan (Ecosys. Sci. and Mgmt.). Drohan portion \$153,616.
2015. PSU COA. \$20,000. Soil Health for One Health, a New College Initiative. M.A. (Ecosys. Sci. and Mgmt.) PD; Drohan co-PI).

- 2015 USGS 104B award from the Pennsylvania Water Resources Research Center. \$20,000 Assessment of Shale Gas Contaminants in Sediment Profiles of the Conemaugh River Lake. B. Burgos (Environmental Engineering) is PD; Drohan co-PI.
2014. USDA-NRCS Soil Survey program. \$40,000. Wetland Ecological Sites, States of Disturbance, and Associated Carbon Stocks in SSR 6. P.J. Drohan (PD).
- 2014 USDA-ARS. \$11,793. Support funds for post-doctoral scholar on Web-Based Forecasting Tool for Nutrient Management.
- 2013 USDA-ARS. \$10,000. Support funds for post-doctoral scholar on Web-Based Forecasting Tool for Nutrient Management.
- 2012 Brigham Young Univ. subcontract of USDA-NIFA award. \$237,106. Greenhouse gas life cycle analysis of biochar effects on marginal land conversion to switchgrass production. P.J. Drohan (PD).
- 2012 USDA-USFS. \$68,724. Identifying the Cumulative Landscape Effects of Shale Gas Development on Forested Ecosystems in Pennsylvania. Drohan, P.J. (PD) with co-PIs Jim Finley (Ecosys. Sci. and Mgmt.), James Grace (Ecosys. Sci. and Mgmt.).
- 2012 Pennsylvania DCNR, Bureau of Forestry. \$55,159. Identifying the Cumulative Landscape Effects of Shale Gas Development on Forested Ecosystems in Pennsylvania. Drohan, P.J. (PD) with co-PIs Jim Finley (Ecosys. Sci. and Mgmt.), James Grace (Ecosys. Sci. and Mgmt.).
- 2012 Pennsylvania DCNR, Bureau of Forestry. \$115,610. Quantifying Soil and Landform Change Across Shale-Gas Infrastructure in Pennsylvania. Drohan, P.J. (PD).
- 2012 USDA-AFRI. \$484,000. Developing a Web-Based Forecasting Tool for Nutrient Management. Drohan, P.J. (PD) with co-PIs Tony Buda (USDA-ARS), Peter Kleinman (USDA-ARS), Miller, D. (Geography, PD), Brian Bills (CEI, PSU), Douglas Beegle (Crop and Soil Sciences), Paul Knight (Meteorology), Henry Lin (Crop and Soil Sciences).
- 2011 USDA-NRCS Soil Survey program. \$78,000. Enhancing Soil Survey Information to Identify Environmentally Sensitive Wet Landscapes. P.J. Drohan (PD) with co-PIs H. Lin; A. Buda, A & P. Kleinmen (USDA-ARS).
- 2011 Northeast Sun Grant Initiative (NESGI) Competitive Grants Program. \$149,458. Production and life-cycle assessment of switchgrass across the heterogeneous landscape of the Northeast. A. Kemanian (PD)(PSU CSS), with J. Kaye (PSU CSS), P. Drohan, and P. Adler (USDA-ARS).
- 2010 Heinz Foundation, \$412,141. M. Brittingham and P. Drohan (co-PDs) with Mortensen, D.; Bishop, J., Miller, D.; and R. Hansen. Effects of natural gas extraction within the Marcellus Shale on forest ecosystems: assessment, monitoring, and remediation.
- 2010 Marcellus Center for Outreach and Research, \$50,000. M. Brittingham and P. Drohan (co-PDs) with Mortensen, D.; Bishop, J., Miller, D.; and R. Hansen. Assessing landscape change due to Marcellus shale drilling operations and devising landscape remediation strategies to minimize site impacts.
- 2010 USDA-NIFA. \$928,395. R. Koide and P. Drohan (co-PDs) with Skinner, H.; Dell, C; Adler, P., and P. Drohan. Greenhouse gas life cycle analysis of biochar effects on marginal land conversion to switchgrass production.
- 2010 USDA-NRCS. \$85,000. Drohan (PD) with Lin, H., Buda, A; and Kleinmen, P. Enhancing Soil Survey Information to Identify Environmentally Sensitive Wet Landscapes.
- 2010 USDA-NRCS. \$40,000. Drohan PD with Brooks, R.; Mortensen, D; Waltman, W. and J. Bishop. Quantifying soil change across MLRAs 127 and 140 for the identification of Ecological Sites and the development of State and Transition Models (USDA-NRCS).

2010. USDA-NRCS. \$17,373. Drohan (PD). Predicting total mercury in Pennsylvania soils in order to predict potential stream Hg loading.
- 2009 USDA-SCRI, \$1,401,931. Manipulating Host-and mate finding behavior of plum curculio: Development of a multi-life stage management strategy for a key tree fruit pest. Tracy Leskey USDA, ARS (PD). Drohan Co-PI.
- 2009 National Science Foundation, EAR/IF Equipment Grant, \$69,862. Acquisition of an inductively coupled plasma optical emission spectrometer. Enid Martinez, PSU (PD). Drohan Co-PI.
- 2009 Penn State College of Agriculture. Seed grant program. \$10,000. Automated Molecular Spectroscopy for Soil-Water Interaction Research--Collaborative Development Studies to Support External Proposals. Doug Archibald, PSU (PD).
- 2009 Penn State College of Agriculture. Seed grant program. \$14,500. Extent and characteristics of freshwater subaqueous soils in Pennsylvania waterways with special focus on reservoir systems. Drohan PD.
- 2008 USDA NRCS Soil Survey Program. \$20,878: Conversion of the Penn State University Soil Characterization Database into NRCS Pedon PC and NASIS Formats. Drohan PD.
- 2008 College of Agricultural Sciences, The Pennsylvania State University. Professional Development Program. \$3,000. Development of Expertise in Soil Micromorphology - Obtain Training in the Lab of World-Renown Soil Microscopic's Lab of Dr. Davidson's, from the University of Stirling, United Kingdom. Drohan PD.
- 2007 USDA, NRCS 2,582: Funded, laboratory equipment donation. Drohan PD.
- 2006 USDA CSREES National Research Initiative. \$100,000. Soil physical, chemical, and mineralogical development associated with *Cercocarpus ledifolius* stands on Mt. Charleston, Nevada. Drohan PD.
- 2005 Bureau of Land Management: \$70,000. Funding for Post-Doctoral Scholar. Assessment of dust transport from Nellis Dunes, Las Vegas, NV. Drohan PD. Co-PI: Brenda Buck, UNLV Geoscience.
- 2005 Bureau of Land Management: \$59,000. Characterization of soils in the Las Vegas Formation. Drohan PD. Co-PI: Brenda Buck, UNLV Geoscience.
- 2005 UNLV New Investigator Award, \$14,984. Soil physical, chemical, and mineralogical development associated with *Cercocarpus ledifolius* stands on Mt. Charleston, Nevada. Principal investigator.
- 2005 UNLV-SITE grant, \$2,900. Determining the composition of mortars and finding the source of the soil used in mortars to construct Ancient Puebloan ruins in Mesa Verde National Park, CO. Principal investigator.
- 2005 USDA, NRCS: Field trip preparation and analyses, Travel grant from NRCS \$121, April 2004.
- 2004 USDA, NRCS: Travel grant to attend the Western Regional Cooperative Soil Survey Meeting, Jackson Hole WY, USDA NRCS, \$930. June 2004.
- 2003 National Park Service, Harpers Ferry, WV. Science consulting and GIS data processing and analysis of Aztec Ruins National Monument, NM and Washington's Olympic Peninsula (soils, geology, aquatics, wildlife, and vegetation). \$3,380.
- 2003 Equipment donation from the USDA Appalachian Fruit Research Station, Kearneysville, WV. Perkins Elmer Model 4000 Atomic Adsorption Spectrometer, Perkins Elmer HGA 400 Graphite Furnace, and block digester. \$1,500.
- 2002 NASA Fellowship awarded to students Kata Rishel and Dustin Hancock for their work with Dr. Patrick Drohan on: A Comparison to Soil Survey Data, and An Estimate of the Variability in Field and Laboratory Data of a Hillslope Transect Crossing Two Mapping Units of an Ultic Hapludalf and a Typic Hapudult. \$2,100.

- 2002 Jefferson County, WV. County land use mapping project. \$500.
- 2002 The Nature Conservancy. Nitrogen, phosphorus and carbon concentrations in a fine-loam, carbonatic, mesic fluventic calciudoll A horizon encroached upon by *Typha latifolia*. \$300.
- 2001 Soil Science Society of America Outreach Grant. Smithsonian Soil Exhibit, \$13,000.
- 2001 NASA Travel Grant. University of Maine composting school. \$750.
- 2001 Shepherd College Conard Fund Grant. Shepherd College composting and the effect on soil development. \$2,500.
- 2001 Shepherd College Professional Development Fund Grant. Shepherd College composting and the effect on soil development. \$2,500.
- 2001 National Conservation Training Center, Jefferson County Watershed Coalition, Four Season's Books, Mr. Peter Pennington, Shepherd College, Shepherd Environmental Organization. *Speaker fundraising for Julia "Butterfly" Hill*. Grants from Shepherd College and donations from outside environmental organizations in the Jefferson County area for a speaking engagement by Ms. Hill at the U.S. FWS National Conservation Training Center. \$5,300.
- 2000 National Science Foundation-WV EPSCoR and Shepherd College. Equipment grant for an atomic adsorption spectrophotometer. \$27,000.

### **HONORS and AWARDS**

- 2014 Penn State University, Sustainability Institute: Penn's Woods Fellow for the College of Agricultural Sciences.
- 2008 "President's Citation for Outstanding Service" from Soil Science Society of America for contributions to the *Dig It* Smithsonian soil exhibit project.
- 2008 July, Person of the month, The Fertilizer Institute. For being a principal founder of the Smithsonian, *Dig It*, soil exhibit.
- 2000 First place, Life and Natural Sciences Division. Penn State University Graduate Research Poster Exhibition.
- 2000 Gerald T. Gentry Award for Excellence in Graduate Research. Gamma Sigma Delta Agricultural Honors Society, Environmental Sciences Division.
- 2000 Second place for oral presentation, Life and Biological Sciences Division. Third Environmental Chemistry Symposium, Penn State University.
- 1999 Gerald T. Gentry Award for Excellence in Graduate Research. Gamma Sigma Delta Agricultural Honors Society, Environmental Sciences Division.
- 1999 Conference Travel Award. Penn State College of Agricultural Sciences.
- 1998 Member of Gamma Sigma Delta Agricultural Honors Society.
- 1991 Dingler Foundation Scholarship, Cook College, Rutgers University.

### **PROFESSIONAL AFFILIATIONS**

- Member, Pennsylvania Association of Professional Soil Scientists
- Member, Soil Science Society of America
- Member, American Quaternary Association
- Member, American Geophysical Union
- Member, Geological Society of America

### **CREATIVE ACCOMPLISHMENTS**

1. Penn State Soil Characterization Laboratory, soil disturbance movie. 2010. Thirteen minute educational movie highlighting acidic mine drainage research I am collaborating with Dr. Mary Ann Bruns and students on at Sylvan Grove, PA.  
<http://vimeo.com/9963364>
2. Penn State Soil Characterization Laboratory, subaqueous soil sampling movie. 2009. Seven minute promotional movie highlighting summer 2009 subaqueous soil sampling work. <http://www.youtube.com/watch?v=pQ8nyZW9TSk>
3. Soil Science Society of America and Greener Grass Productions. 2005. "The Substance of Life". Two minute promotional piece for the Smithsonian Soil Exhibit Project. Drohan chaired the SSSA Smithsonian exhibit design committee that helped develop and edit the piece produced by Greener Grass Productions.
4. Greener Grass Productions. Dunkerly, C., and T. Radford (editors). 2004. "Mosaic of Diversity", Olympic National Park visitor center movie. US DOI, NPS. Drohan is listed in the credits for conducting GIS and imaging analysis used in the movie. Time: 25 min. Winner of a Golden Eagle Special Jury Award at the Cine Festival 2005 and Best in the Non-Broadcast category, at the 2005 International Wildlife Film Festival in Missoula, MT with a special merit for editing, cinematography and "unique footage." Copy available for viewing.

### **PROFESSIONAL SERVICE**

2016-present	Advisor to West Virginal National Guard "Patriot Guardans" initiative.
2016-preent	Soil Science Society of America Soil Taxonomy Committee.
2015-present	Associate Editor, Agricultural and Environmental Letters Journal
2014-present	Associate Editor, Soil Science Society of America Journal.
2013-present	Pennsylvania Department of Conservation and Natural Resources, Governor's Shale-Gas Taskforce.
2013-2015	Board member, Pennsylvania Assoc. Prof. Soil Scientists
2012	Past Chair, S-5, Pedology Division, Soil Science Society of America.
2011-present	Member SSSA National Soil Science Field Camp Planning Committee.
2011	Chair, S-5, Pedology Division, Soil Science Society of America.
2010	Incoming Chair, S-5, Pedology Division, Soil Science Society of America.
2010-present	Council of Soil Science Examiners, Soil Science Society of America.
2009-2010	Chair elect, S-5, Pedology Division, Soil Science Society of America.
2009-present	Associate Editor, Soil Use and Management.
2008-2012	Committee Member: Department Soil Physics Cluster Committee, Dept. Crop and Soil Sciences, The Pennsylvania State University.

2008-2012	Committee Member: Department Computer Committee, Dept. Crop and Soil Sciences, The Pennsylvania State University.
2007-2012	Committee Member: Hunter Plot Rotation Experiment Committee, Dept. Crop and Soil Sciences, The Pennsylvania State University.
2006-present	Committee Member: ACS536.2 Agronomic Science Foundation, Science Policy Advisory Committee.
2006-2007	International Union of Soil Scientists – Vice Chair for Commission 4.4 - Soil education and public awareness.
2004-present	Soil Science Society of America (SSSA) - S590 Professional Development & Mentoring, ad hoc.
2003-present	USDA Natural Resource Conservation Service Volunteer.
2003-2004	Committee member: National Academy of Sciences, National Trends in Undergraduate Soil Science Education, Subcommittee of the National Committee for Soil Science.
2003 - 2004	SSSA - S-587, Soil Science Society of America, Training and Continuing Education for Soil Scientists.
2003	Committee member: Western Regional Cooperative Soil Survey Committee; Research needs in production soil survey.
2003	Committee member: National Cooperative Soil Survey Committee; Committee 3: New inventory techniques and delivery systems in production soil survey.
2003 - 2011	SSSA - S589.4 Smithsonian Soils Exhibit--SSSA Design Committee Chair.
2003	President of the West Virginia Association of Professional Soil Scientists.
2002 - 2003	Vice President of the West Virginia Association of Professional Soil Scientists.
2000 - 2003	Webmaster, West Virginia Association of Professional Soil Scientists.
2002 - 2003	Blue Ridge Environmental Center, Purcellville, VA, Agricultural Board Representative.
2002 - 2003	Jefferson County, WV, Storm water detention basin design and West Nile virus review committee.
2002 - 2004	Member of the Soil Science Society of America, Division S-5 committee to investigate member benefits of ARCPACS certification.
2001 - 2011t	SSSA - S589 Smithsonian Soils Exhibit--Steering Committee Co-Chair.
2001 - present	Referee for various journals.

## **UNIVERSITY & DEPARTMENTAL SERVICE ACTIVITIES**

2016-present	Chair, Penn State College of Agriculture Faculty
2015	Incoming Chair, Penn State College of Agriculture Faculty
2015-present	Ecosystem Sci. and Mgmt. SOILS program candidacy exam committee.
2015-present	Ecosystem Sci. and Mgmt. Social committee.
2014-present	Penn State University Sustainability Institute, Penn's Woods Fellow for the College of Agricultural Sciences.
2006-2007	Hartwick College Enrollment Management/Retention Task Force
2006-2007	Golisano Hall Leed Certification Committee, Hartwick College
2006-2007	Member and Chair, Pine Lake Vested Users Group, Hartwick College
2006-2007	Member and Chair, Campus Sustainability Committee, Hartwick College

2006/2007	Hartwick College Academic Theme Committee: Water
2005-2006	Department of Geoscience Promotion and Tenure Committee
2004-2006	Member and chair of the UNLV, Dept. Geoscience Library Committee
2004-2006	Member of the UNLV, Dept. of Geoscience Computer Committee
2003-2006	Member of the UNLV, College of Science and Technology Building advisory group
2003-2004	Member of the UNLV, Greenspun College of Urban Affairs Academic Standards Committee
2002-2003	Member of the Shepherd College Student Life Council
2002-2003	Member of the Shepherd College Buildings and Grounds Committee
2002-2003	Member of the Shepherd College Assessment Task Force
2002-2003	Member of the Shepherd College Graduate Programs Committee
2002-2003	Member of the Shepherd College Master Planning Committee
2002-2003	Shepherd College Faculty representative to the United Way

### GRADUATE STUDENT ADVISING

1. Nico Navarro: PSU, SOILS Ecosys. Sci. & Mgmt. (MS began Fall 2016).
2. Shauna Kay Rainford: PSU, Ecology Ecosys. Sci. & Mgmt. (Ph.D. began Fall 2013).
3. Lauren Vitko: PSU, SOILS Ecosys. Sci. & Mgmt. (Ph.D. began Spring 2012).
4. Michael Masrsicano: PSU, SOILS Ecosys. Sci. & Mgmt. (MS began Spring 2011).
5. Cody Fink: PSU, SOILS Ecosys. Sci. & Mgmt. M.S. Dynamic soil property change in response to natural gas development in Pennsylvania (2015).
6. Katherine Lindeburg: PSU, SOILS Dept. Crop and Soil Sciences, M.S. Eolian signatures in non-loess parent materials of the Unglaciaded Appalachian Plateau, USA. (2011)
7. Emilie Erich: PSU, SOILS Dept. Crop and Soil Sciences, M.S. A hydroopedological perspective of Total Hg transport in an Appalachian Plateau headwater basin. (2010)
8. Maureen Yonovitz: UNLV, Dept. of Geoscience, M.S.: Pedogenesis of vesicular horizons in disturbed and undisturbed soils. (2008)
9. Joshua Boxell: UNLV, Dept. of Geoscience, M.S.: Changes in infiltration and percolation following establishment of *Bromus tectorum* in the Great Basin, NV. (2007)
10. Peggy Elliott: UNLV, Dept. of Geoscience, M.S.: Development of argillic horizons in a quartzite soil along a toposequence on Mt. Charleston, NV: relic formation process or current development? (2007)
11. Shane Rumsey: UNLV, Dept. of Anthropology, M.S.: (co-advisor UNLV Karen Harry (Anthropology)): Mineralogical and chemical composition of soil used in mortars between kivas in Mesa Verde National Park. (2007)
12. Nancy Williams: UNLV, College of Science, M.A.S.: Soil physical and chemical relationships associated with rare plant species in the White River Valley, NV. (2006)
13. Rekha Saxena: UNLV, Dept. of Environmental Studies, M.S.: Soil chemical relationships associated with *Arctomecon californica* in gypsiferous and non-gypsiferous soils. (2005)

### CONTINUING EDUCATION

- 2001 University of Maine, Maine Compost School, medium- and large-scale composting certification.
- 1993 USDA–Forest Service, Course series on wild-land fire fighting. Advanced fire behavior; fire behavior calculations; hydraulic pumps.

### TECHNICAL/COMPUTER SKILLS

- Director, Penn State Soil Characterization Laboratory.
- Co-Director of UNLV Pedology Laboratory; Experience with standard NRCS and USDA soil chemical, physical, and mineralogical analysis, operation of laboratory analytical equipment (AA, ICP, graphite furnace, microwave digester) and field equipment in soils and hydrology. Experience with climate and stream monitoring stations, construction, and maintenance.
- GIS software skills: ArcGIS and Arc Info Desktop and extensions; ArcView 3.3 (experience with multiple ArcView extensions) on Windows workstations. Working knowledge of Bryce 5.0, Terragen, 3DEM, IDRISI, and IMAGINE. Experience with several hydrologic modules (HEC, SWAT, SWMM, and AGNPS).
- Intermediate to advanced knowledge of computer setup, components, networking, and trouble-shooting.
- Proficient in the use of personal computers for word processing, spreadsheet, statistical, WWW design and graphics applications. Proficient in Microsoft Office; Minitab; R, SPSS; S-PLUS; Word Perfect; ANGEL educational software for distance education; Adobe Acrobat, PageMaker, Photoshop, and Illustrator; Corel Bryce; Terragen; JASC Paint Shop Pro; HTML code.
