Publications of R. C. Vaughan

4. An application of the large sieve to a diophantine equation, Oberwolfach 5(1971), 203-207.
9. On the number of solutions of the equation \( p = a + n_1 \ldots n_k \) with \( a < p < x \), J. London Math. Soc. (2), 6(1972), 43-55.
10. On the number of solutions of the equation \( p + n_1 \ldots n_k = N \), J. London Math. Soc. (2), 6(1973), 326-328.
33. On the distribution of $\alpha p$ modulo 1, Mathematika 24(1977), 135-141.
44. An elementary method in prime number theory, ibidem, 341-348.
