

# Engineering Drawing Skills

## Multi View

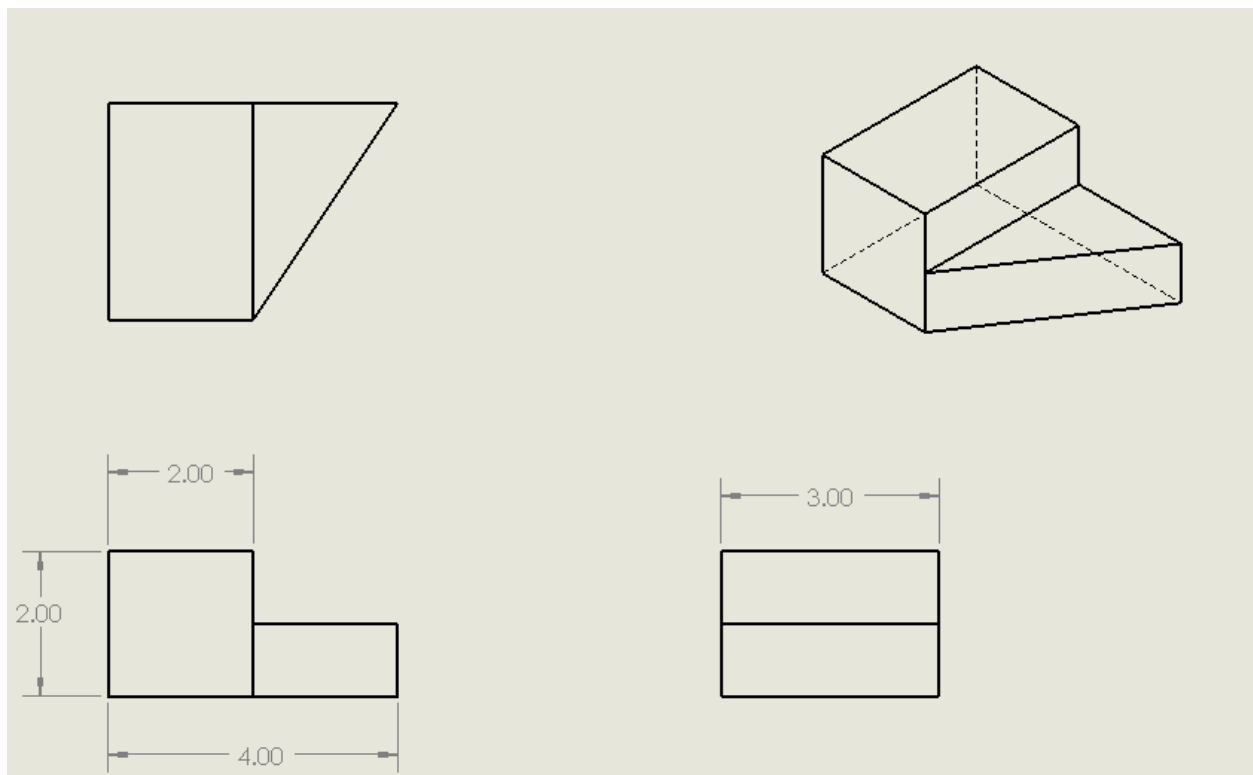

The three different views were drawn by observing the isometric view.

## Isometric View

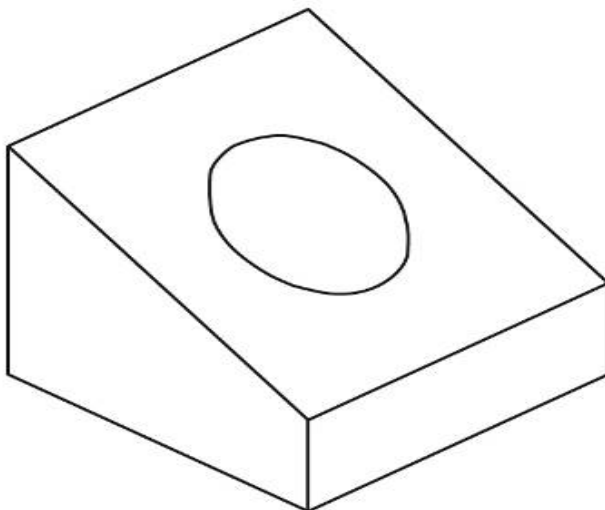

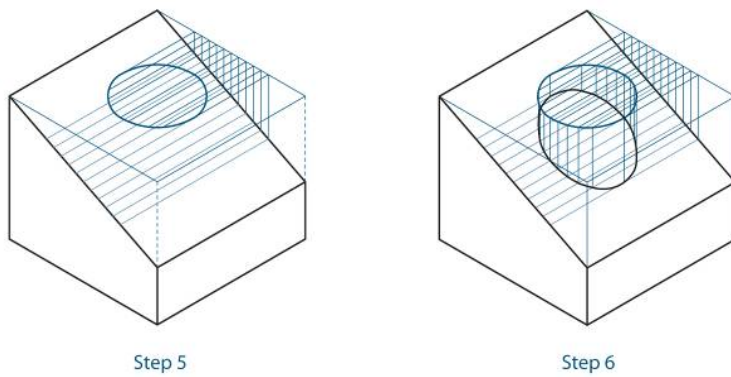

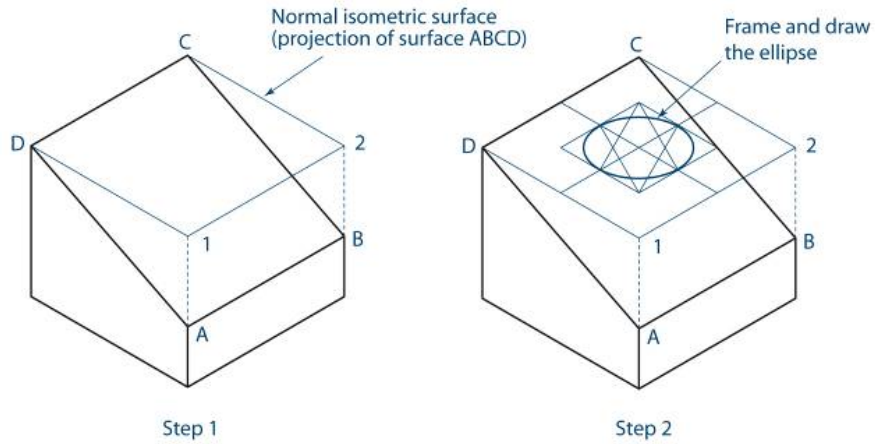

From this multi view an isometric drawing was created. It displayed below.

## Ellipses on an Inclined Plane

The skill of drawing ellipses on an incline plane was learned. This skill is displayed in the following series of pictures.

## Sectional View

In engineering design 100 the skill of drawing sectional views was also taught. How to draw a sectional view is displayed in the following picture.
