### **Objective**

My goal is to use the knowledge that I have learned in the university to become a great chemical engineer and work for the best company in my country. I want to obtain a high education degree for the purpose of gaining experience in a well facilitated firm, and keep on enhancing my abilities to be more professional at what I do.

### **Education**

Secondary school diploma in Engineering Science Energy, at the Applied Technology High School, Dubai, U.A.E.

### **Courses:**

- Calculus I & II
- SAT Physics
- Advanced Chemistry
- Advanced English
- Basic sciences.
- Informational computer technology
- Measurement and Process monitoring
- Thermodynamics

### **Experience**

- Developed skills in Nuclear Engineering and through an internship to South Korea.
- Participated in a cumulative hours of 100 of volunteer work with the help of my high school.

### **Skills**

Educational:

- Good Mac/Windows user.
- IC3 certification.
- Languages: English and Arabic.

Athletic:

- Soccer, swimming, and being fit.
