

Publications since 2002

Nanda, V., Schmiedekamp, A., "Are aromatic carbon donor hydrogen bonds linear in proteins?", *Proteins: Structure, Function, and Bioinformatics*, 70(2), 489-497, (2008).

Schmiedekamp, A.M., Ginnetti, A., Piccione, B., Cannon, K., Ryan, M. D., "Six Coordinate Co^{+2} with imidazole, NH_3 and H_2O ligands: Approaching Spin Crossover", *International Journal of Quantum Chemistry*, 107(6), 1415-1429 (2007).

Brewer, Cynthia T.; Brewer, Greg; Butcher, Ray J.; Carpenter, Everett E.; Schmiedekamp, Ann M.; Viragh, Carol. "Synthesis and characterization of a spin crossover iron(II)-iron(III) mixed valence supramolecular pseudo-dimer exhibiting chiral recognition, hydrogen bonding, and π - π interactions." *Dalton Transactions*, 44(3), 295-298, (2007).

Brewer, Greg; Olida, Myro Joy; Schmiedekamp, Ann M.; Viragh, Carol; Zavalij, Peter Y. " A DFT computational study of spin crossover in iron(III) and iron(II) tripodal imidazole complexes. A comparison of experiment with calculations." *Dalton Transactions* (47), 5617-5629 (2006).

Brewer,C., Brewer, Greg, Butcher, Ray J., Carpenter, Everett E., Cuenca, Luciann, Schmiedekamp, Ann M., Viragh, Carol, "Synthesis and characterization of seven-coordinate imidazole complexes of iron (II) and manganese(II)," *Dalton Transactions* (22) 3617-9 (2005).

Schmiedekamp, A., Schmiedekamp, M., Nair, K.P.R., "Rotational barriers of methyl fluorosulfonate and chlorosulfonate: a comparison between computational methods and experiment", *International Journal of Quantum Chemistry*, 95, 719-730 (2003).

Schmiedekamp, A. M., Ryan, M. D, Deeth, R. J., "Six-Coordinate Co^{+2} with H_2O and NH_3 ligands: Which spin state is more stable?", *Inorganic Chemistry*, 41(22) 5733-43, 2002.
