

Engineering Drawing -

Every first year engineering student will face enough troublesome subjects and Engineering Drawing is one of the toughest. It is very obvious to have a sound knowledge of drawing for an engineering student of any branch. Technical drawing subject does not only teach students on how to draw lines and points but it is a perfect source of communication between engineer and construction sheet to make innovative designs for better future. Engineering Drawings are those drawings that found very helpful to many industries to make their productive layout on sheet of paper to get higher productivity. Students should know the drawing fundamentals, abbreviations and symbols if they wish to:

- Design any part of machinery,
- Make changes in existing mechanical drawing,
- Sketch the invention on paper,
- Follow a certain technical field.

We have learned two types of drawings :-

- 1) Isometric
- 2) Multi-view
