

Several Recommendations we are suggesting for a better product:

Add extra features like storage in back rest, cup holders, etc.

Right triangle leg attachments (added support)

Right triangle legs (added support)

Decrease the amount of material used to reduce weight without compromising durability.

Make the product more aesthetically pleasing by painting, adding pictures, etc.

Create a larger chair. Several people said the chair is too small.

Create a higher back support for added durability and to prevent tipping of top piece of the seat.
