Objective: I am trying to find a position in agriculture engineering. Either research and development or in the design process or tractors and power equipment

Education: I am currently a student at The Pennsylvania State University. I am going to get my B.S. in Agriculture Systems Management with a minor and in Off Road Power Equipment.

Experience: I worked for Simply Grazin' LLC. It is the largest organic farm in the state of New Jersey. I was responsible for everything from feeding of our cows, pigs, and chickens to repair of machines.

I am a NJ State certified Firefighter. I am the communications officer for Rocky Hill Hook & Ladder Co. No. 1 I am also an asst. Engineer for Montgomery Twp. Volunteer Fire Co. No. 2. I am partly responsible for maintenance on our brush truck. At Rocky Hill I am in charge of all aspects of communications, including pagers and radios. I also help with the maintenance of our two engines.

Activities: I am a member of the Penn State Pullers. A club devoted to building a tractor to compete in the International Quarter Scale ASABE pulling challenge. We design and build a tractor from the ground up every year to compete against other schools all over the nation.

I am the assistant coach for the Penn State Baseball Club. A D1 Club team in the NCBA. We regional champions 8 years running. We have made it to the national championship 2 out of the past 4 years.
