High School: Central Bucks High School South:

- GPA; 3.9
  - National Honor Society Member for all Years
  - Completed around 50 hours of community service
- 

## Community Service:

Mission Philadelphia: I worked around 6 hours a day for a week building farms and greenhouses for the communities in Philly. We worked with community members on the projects to include them in the design and layout of these urban farms. The participatory design allowed us to establish these farms so they will be used to their maximum potential.
