

*Geography 586 / Term Project Status Report - Week 8 / Bruce Kinner*

The following items on the term project proposal have been completed.

Digitize 1994 contour - completed.

Digitize 1891 contour - completed.

Plans for the next week - Finish the project!

- Build the TINs
- Calculate the volume and surfaces up to 731 ft (the stage of the flood).
- Create flow model to approximate the fill of the basin.
- Compare data from 1994 and 1891 to see the impact of changes from land use!
