ANGEL – A New Global Environment for Learning

ANGEL is the official Penn State course management system. It is used by faculty and students as a place to post course documents and activities.

Faculty members use ANGEL to post items such as their course syllabus, announcements, homework assignments, quizzes, and more. Once an item has been uploaded, students can access the material from anywhere they have internet access.

To Log onto ANGEL:

1. If you are on the Penn State Fayette web site, click Current Students and click on the ANGEL link or go to http://cms.psu.edu/
2. Enter your Penn State Access Account userid and password, then click the Login button.

Once you select a course from the list, you are taken to the Lesson tab where the course material is located.

There are 6 tabs across the top that take you into the areas where information is posted and available to you. They are from left to right: Syllabus, Calendar, Lessons, Resources, Communicate, and Report.

Other Features:

1. There is a drop down box next to your name in the upper right corner of the ANGEL window. It allows you to navigate between courses and groups without returning each time to the My Profile page.
2. Your ANGEL mail from all the courses and groups you belong to can now be accessed from the My Profiles page. It can still be viewed and messages sent from within each course/group.

To Logoff of ANGEL:

When you are finished with an ANGEL session, select the Log Off button in the Guide bar. It is located on the left side of your screen and looks like a power button.

You will be asked if you are sure you want to log off, click OK.

My Profile Page

There are several sections to this page including a navigation or guide bar on the left side of the window. From this guide you can get Help, return to your Home Page, or change your settings.
