

Campus Address:
519 Curtin, Curtin Rd.
State College, PA 16802

Chris J. Ignozzi
Cji5017@psu.edu

Permanent Address:
314 Wood Street
New Kensington PA, 15068

Objective: In search of a full time Mechanical Engineering job in May 2013

Education: **Undergraduate of Science in Mechanical Engineering**
Pennsylvania State University, University Park, PA
Expected Graduation in May 2013
High School QPA: above 4.0

Leadership Skills: *Leader of numerous sports teams while growing up*

- Was a captain at each individual level in my youth football program.(Pee-Wees, Hawks, Falcons, and Eagles)
- Ninth grade football I was named a captain due to my outstanding work ethic. Through tenth and eleventh grad I was a captain of the JV football team, and 12th grade I was a leader again due to the fact that I never gave up.
- In wrestling I was a captain due to my dedication to come to practice, and the effort I put into each workout.

Other Leadership Responsibilities

- Organized and held a blood drive at my high school. This included setting a time and date for the blood drive, and scheduling all of the donors.
- Leader of various group projects in highs school. Some of which include: creating podcasts summaries, creating movie trailers for books, and a bearing witness project.

Experience:

- Doing chores around the house which include: mowing the lawn, vacuuming the pool, weeding the rock garden, and cleaning my room. *All the years of doing this has taught me, you might as well do it to perfection the first time than do it numerous times.*
- Worked at McDonald's for around 7 months, and **never** had a complaint about me.
- Created a Rube Goldberg project that in the end deposited a gum ball, and designed a bridge out of skinny wooden sticks and glue.

Activities: *Engineering Design 100*

- Currently designing and constructing a cardboard recliner with various features to support a human being.
