Objective

Looking for an entry level position in the computer engineering/computer science field, eventually working toward a management position.

Or

Internship under a physician following Medical School.

Education

Easton Area High School: July 2014

Student at Penn State University

Expected Graduation Date: May 2018 with B.S. in Computer Engineering, and Minor in Biology

Work Experience

Baby Sitting: 4+ years

Busser at Two Rivers Brewing Company: Dec 2012-April 2013

Job Requirements: cleaning tables, serving patrons, and inventory management.

Lifeguard at Imperial Pool Management: August 2013-Present

Job Requirements: patience, handling children, first-aid and CPR, and pool maintenance.

Experience in Engineering

5 years of experience in drafting and CAD

Extensive double credit course on Introduction to Engineering in high school.

Experience with: AutoCAD, Revit, Inventor, and SolidWorks.

Engineering Design class at PSU:

Designed a method by which one can easily lay out a grid for greenhouse construction in Mozambique.

Designed a system in which hybrid vehicles can collect waste heat and transfer the energy into electricity to power the engine.

Created a highly detailed model of a bicycle in SolidWorks.
