Quiz 1

August 30, 2010

name _____

"calculators, you don't need no stinkin' calculators"

1. Solve the equation for x , if possible.

$$\frac{2x}{x+1} - \frac{1}{x-1} = 1$$

2. Solve the equation for x . $x(2x-1) = 6$

3. Solve the equation for x . $x^2 - 5x - 2 = 0$

In order to post grades, please provide a four digit number that you can recall.

*It does **not** need to be your psu id#*
