Experience

Teacher Assistant for STEM (Science, Technology, Engineering, Mathematics) Program

08/05/15-08/19/15

1500 New York Ave, Union City, NJ 07087

25 hours/week

- I worked as a teacher assistant for a STEMS program at Colon Powell, Elementary School in Union City, NJ. Along side a teacher, I was in charge of twenty-five kids that ranged from third to fifth grade. In this program the children had the opportunity to use their creativity and come up with ideas from projects that would benefit not only their community but also people around the world. I was in charge of assisting the kids in any problems they had as they came up with these ideas. I was mainly in charge of helping them with their model designs done on the computer, and helping prove if their ideas or models were possible.

Education

Paramus Catholic Regional High School

2011-2015

Paramus, NJ, 07652

Pennsylvania State University

2015-present

University Park, PA, 16802

Community Service

Student Worker at St. Augustine's Elementary School

2011-2015

3920 New York Ave, Union City, NJ 07087

over 100 hours/year

- I volunteered at St. Augustine's Elementary School throughout all four years of high school. I assisted the sisters of the school by doing everything from helping kids out with class work, to moving furniture and cleaning the classrooms. I also helped in school marketing by helping design flyers and webpages to promote the school. Each year I collected over one hundred hours of community service, which led to over four hundred hours by the end of my senior year.
