Education	Penn State University August 2010-present Bachelor of Science, Engineering GPA: 3.53		
Objective	I wish to use my education in engineering to gain an internship or co-op and eventually a career in engineering. Although I am not currently declared in a specific engineering major, I have a great deal of interests and am willing to explore many fields.		
Experience	I was named to the Dean's List. I have worked since June of 2008 during the summer at A&LP and plan to continue working there. I have also started working at Subway in January of 2011.		
Activities	I am a member in HAC. It is a group where we are active in the community by volunteering for at least 15 hours of community service a semester. I am a member of the Recycling Revolution which is a group in which I regularly help recycle for entire building.
