Kite Design

Team 6
Alan Chiu, Tim Chwal,
Elliott Dambaugh, Charles Owen
* Kites have been around for centuries and have been used for many various purposes
  * Recreational purposes
    * Flying in general
    * Sport / Stunt kites
    * Fighting kites
  * Research purposes
  * Military purposes
Delta

* Very Common design
* Cheap
* Usually for recreational activities
Box

* High performance (high efficient)
* Developing relatively high lift
* Typically has four parallel struts
* Is made rigid with diagonal crossed struts
Diamond

* Standard kite
* Very simple to make
* Designed for beginners
* Intended for recreational use
