Profile

I don't have much experience with working, but I have spent my whole life as a student who works to his fullest. I take as many classes and opportunities presented to me as I possibly can. I have 8 siblings and I watch over six of them about three times per week. I have been apart of many clubs in my life, but my college career so far has consisted of three clubs, the Student Proliferation of Anime, the IT club, and the Engineering club.

Skills

- Advanced Math and other academics.
- Have worked on engines for various vehicles my whole life.
- Flexible thinking/problem-solving
- People Person
- I have an omniscient background.
- I'm very careful when working.
- I'm punctual when it comes to work/presentations.

Accomplishments

I graduated with honors and as a member of the National Honor Society for the West Branch Area Jr/Sr High School. I was involved in many clubs such as Drama, Chorus, Football, National Honor Society, the National Society of High School Scholars, the International Club, the History Club, and Upward Bound. I have taken care of my grandparents and siblings since I turned 13 years old.

Education and Training

Pennsylvania State University

2018

Bachelor of Science: Aerospace Engineering

State College, Pennsylvania, United States

Affiliations

Upward Bound was a big part of my high school career because it helped me learn about college and prepared me for the course work.
