**Outside Interests** I thoroughly enjoy anything outdoors. Hunting is probably one of my favorite things to do, be it predators, groundhogs, deer, or turkeys. I also enjoy hiking, camping, cutting firewood, and things like that. I also toy around with making maple syrup in January to March. It is a rewarding experience because I get to see the product from the tree to the package on my table. I hope to grow this hobby into a small business and market my product at local farmers markets.
