

# Engineering Drawing Work

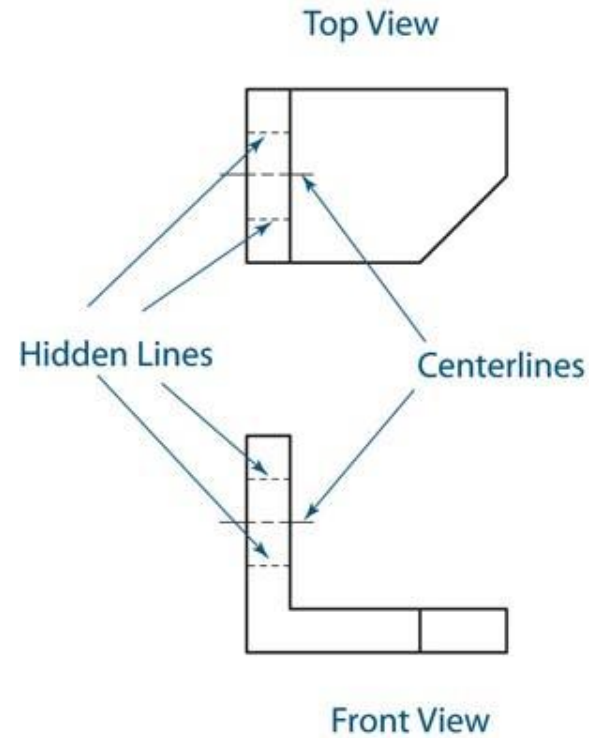

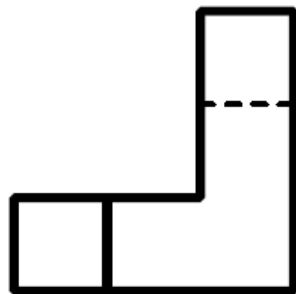

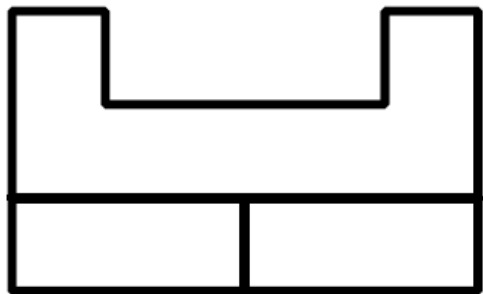

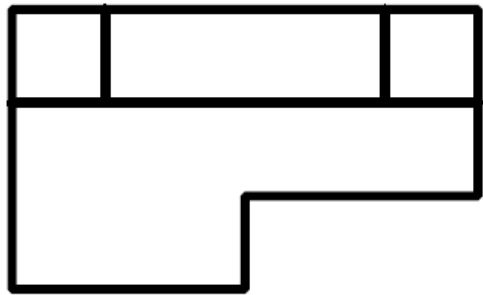

Spring 2016

John Kaplan

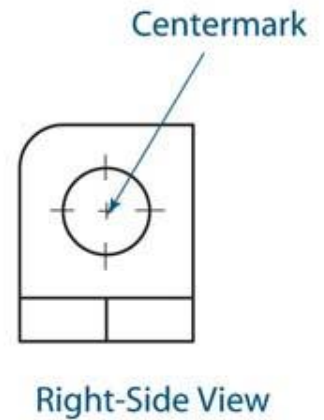

Multiview drawings- Multiview of the part showed me how to make drawings of front, right, and top view of that same part

Isometric view- top, right, and front views showed me how to combine them to make a multiview drawing

Pictorial for clarity

# Lines

- Hidden lines and center lines were just a few examples of line types that were learned throughout EDSGN 100
