## Professional Summary:

With a great skill set and a hard working mentality, I am a great addition to your workforce. I have worked two summer lifeguarding jobs where I have had multiple responsibilities and learned to work effectively in a team. I am certified in CPR and automatic electronic defibrillator usage. I have worked a summer internship where I learned a lot about how business and factories work. I am currently studying at the main campus of the Pennsylvania State University and am finishing up my first year . I have had multiple classes where I have learned how to use and design projects in computer aided design programs. Also, in these classes I have learned how to work efficiently in a team working on a project and how to be an effective leader of a project group. I am currently progressing my skills and am preparing to become a mechanical engineer once I finish with my college education.

## Highlights

Internship with AMG Vanadium	Responsible
Lifeguarding jobs	Great teamwork
Computer Aided Design	Hard working
CPR and AED certified	Leadership qualities

---

## Experience:

Dorney Park and Wildwater Kingdom

### Lifeguard

Allentown, PA--Summer of 2012

- I was responsible for the lives of many swimmers and guests in the park on a daily basis. I was able to do this with my training and certification in CPR and AED.
- Among this huge responsibility, I also had the duties of maintaining good customer service and maintaining a clean park appearance.

Silver Creek Country Club

**Lifeguard**

Hellertown, PA--Summers of 2013 and 2014

- Similar responsibilities of the Dorney job, I once again used my certification to be responsible for the lives of many different families and children
- This job helped me progress my team working abilities since there was more of a focus on our team of 12 lifeguards, supervisors, and manager to maintain the pool facilities while the club manager focused more on other areas of the business

AMG Vanadium

**Internship**

Cambridge, Ohio--Summer of 2015

- I spent several weeks in each of the different departments of the factory. I was able to observe how both the business and the manufacturing parts of the company worked and gained valuable experience.

---

**Education**

Pennsylvania State University, University Park

**Intended Major: Mechanical Engineering**

University Park, PA

**Graduation 2018**
