

Tarwiya

(Quenching Thirst)

Tarwiya's design allows consumers in Cameroon access to the following:

- Easy Assembly
- Economically Efficient Use of Vinyl
- Maintainable Design
- Clog Preventing Button Drippers
- All at the Price of 31.19\$!

A tank placed upon a stand enables the water to gravitate downward through the vinyl tubes. The tubes will be attached through fittings and the water will be distributed to the plants through a button dripper.
