

I am from a small suburb; Lansdowne, PA; that is just outside of West Philadelphia. In high school, I rowed, played soccer, and graduated at the top of my class. I was also very involved in school as a member of the Executive Student Council, National Honors Society, Mathletes, and Activity Representatives. I have recently completed my second semester at Penn State with a 3.81 cumulative GPA pursuing an aerospace engineering degree with a minor in IST and possibly a certificate in engineering design. I am also a member of a special interest organization benefitting Thon, the AIAA, and two national honor societies (Phi Eta Sigma and the NSCS).
