312 Hastings Hall
University Park, PA 16802

OBJECTIVE

To apply as an intern for an Engineering Firm to further enhance my skills and experience in this field of study.

SKILLS AND ATTRIBUTES

Easily instructed, strong work ethic, intelligent, dedicated, good hands-on knowledge, organized and responsible.

EDUCATION

The Pennsylvania State University, Pennsylvania—2014
Intended Major: Mechanical Engineering

EXPERIENCE

Basketball Referee, Carmel Sports Association; Carmel, New York, 2008-2010

Worked 12 hours a week refereeing recreational basketball games of children ages 6 to 16. Gave me the skills to back to up my decisions with confidence and the experience of working by myself, as well as with others to get the job done. In addition, I was able to instruct younger children in the game of basketball, watching them grow and become better players as the years went on.

Volunteer Instructor at Baseball Clinic, Kennedy Catholic; Somers, New York, 2006-2010

Instructed children ages 7 to 14 in the game of baseball, enhancing their skills in the field and at the plate. Worked three hours every Saturday for eight weeks, developing and running drills to help the children build skills. This camp helped the Kennedy Catholic Baseball Team raise money to get through the upcoming seasons.
