

MCPL WANTS YOU!!!

Do you want to challenge yourself?

Do you want to expand your textbook knowledge to academic research?

Do you want to fill your college life with more life experiences?

Do you want to be a true scholar and a real gentleman/lady in the future?

$$m\ddot{x} + 4kx = F \sin(\omega t)$$

If you say yes to one of those questions above,
Multiscale Computational Physics Lab (MCPL) is for you.

MCPL is founded by Dr. James M. Chen at Penn State Altoona.

If you are interested, please feel free to contact Dr. Chen at juc47@psu.edu
with your current CV, an unofficial transcript and contact information of two references.
