Objective:

- To score an internship with a civil engineering firm, with the possibility for rehire after graduation.

Leadership experience:

- Served as a camp counselor for an outdoor school program during senior year of high school.
- Served as an active member of SAVE: Students Against Violating the Earth, a fairly large environmental awareness/protection club during junior and senior years of high school.
- Served as a committee member and leader of various community service projects and events through SAVE, like community recycling days and environmental fairs.
- Became an active member of the Penn State Fencing Club. Considering a leadership position within the club, like treasurer or vice president.
- Has assisted in various hands-on projects, including home improvement, construction, and repair.

Skills:

- Experience in autocad, google sketch-up, solidworks, excel.
- I work productively and efficiently when given a task to complete.
- I work well in groups with other people. I'm receptive to new ideas and friendly.
- I'm creative and great at brainstorming ideas.
- I am a great problem solver.
