Reminiscing through the 20's and 30's.

Let's reminisce about the good old days of the 20's and 30's. Did your mother have a coal stove that she polished every week that had a warming closet at the top where she kept your meal warm if you were out sleigh riding? Remember the delicious hot bread made on the hot coals of the fire? Did she use a large cast iron skillet that you dried on the back of the stove after it was washed? This pan was used for frying, baking, and cooking every meal of the week.

Twice a year at housecleaning time did she buy new oil cloth for the kitchen table and always change the color so it would brighten the kitchen? Did you iron your clothes with a sadiron that you heated on the back of the stove and had to watch that it did not scorch your clothes? Was your living room a parlor and the sofa the children were allowed to sit on during the good times? Did you have 3 floors and a laundry room? Did you have a floor lamp with a beaded fringed shade and tapestry like runners on the table? Did you have a player piano with piano rolls that you could pump and sing to your heart's content? (Probably no one else's!)

Did you iron your clothes with a sadiron that you heated on the hot coals of the stove? This pan was used for frying, baking, and cooking every meal of the week.
