Objective: Our mission is to provide a proactive approach about safety through innovative utilization of new connectivity features.

Co-Pilot Technology

Connected

- Car technology that uses a heads-up display (HUD) to assist the driver in being safe and connected.
- Wireless technology connects the phone and GPS to the driver without taking his eyes off the road.

Safe

- Co-Pilot ensures minimum distractions
- Analyzes the driver’s attentiveness
- Sensors detect road hazards

Total Estimated Cost- $1,203
