Many materials needed.
Very elaborate for the task.
Very time consuming.
Very difficult to craft.
Sled

- Very resource-efficient, but
- A bit too complicated.
- Time consuming design.
Box

- Suitable due to large amount of lift, but
- Very demanding of resources.
- Difficult design leads to time consumption.
Delta

• Very suitable for objective.
• Easy to make.
• Plenty of lift.
• Reliable in the field.
