Continuous Process Improvement Intern

May 2014 – August 2014

- Implemented optimization strategies that focused on reducing process time and generating revenue in-house based on analysis of current methods and systems. This effort enhanced efficiency and experience for clients and employees.
- Integrated Lean Six Sigma methodology by utilizing DMAIC phases to eliminate downtime between activities. This standardized quality measures and simplified operations within the organization.
- Supported the team with meeting preparation, documentation, facilitation, minute creation and execution of follow-ups.
- Maintained standards that followed DMAIC phases, and defined deadlines to meet financial goals, milestones and tollgate deadlines for various projects on a weekly basis for the team.
- Planned and facilitated the Global Process Owner Offsite Meeting for the Vice Chairman and other members of senior management.
