10 Huntsman Drive, Garnet Valley, Pa, 19060 | 610-888-1542 | wjs5219@psu.edu

## SUMMARY

---

I am 18 years old and currently I am a first year student at Penn State University in the College of Engineering. My intended major is in mechanical engineering. My hobbies include, playing recreational and competitive sports, listening to music, and hanging out with friends. In high school, I was involved in various different clubs and activities, many of which placed me in a leadership role. I was the Vice President of my school's French Club. Also, I was a member of Varsity Club, which required thirty of the school's prominent and respected athletes to organize fundraisers for different charity organizations. Aside from clubs, I played three varsity sports: soccer, basketball, and baseball. I was the basketball team captain both my junior and senior year. My parents both played college sports, so athletics has been the center of my life. It has taught me many valuable lessons and has allowed me to make most of the closest friends I have today.

## COMPUTER SKILLS

---

### Software

Microsoft Word

Microsoft Powerpoint
