Kite Flow Diagram

1. **Brainstorm Ideas**
2. **Draw Kite Design**
3. **Build and Test Prototype**
4. **Gather Building Materials**

   - **Measure length on wooden dowels**
   - **Saw to measure mark**
   - **Sand for smooth edges**
   - **Laid out kite design on table**

   - **Glued edges together**
   - **Reinforced connected edges with duct tape**
   - **Added tarp to kite**
   - **Used duct tape to connect tarp to wooden dowels**

   - **Attach string to all four corners of kite, gather strings in front**
   - **Test Kite outside**
   - **LET IT FLY!!!!!!**
