STAT 250 Pretest (5 points)

Due: 5pm on Friday, 8/28/15.

Go to https://apps3.cehd.umn.edu/artist/goals/test/ and enter access code VOC5717ATV. For your name, please enter your PSU email ID (three letters followed by numbers) so I can give you credit accordingly. This will bring you to a pretest consisting of 20 multiple choice questions which should take you about 30-45 minutes to complete.

This is a pretest assessing your conceptual knowledge of statistics coming into this course. NO PREVIOUS KNOWLEDGE of statistics is expected for this course, and you are not expected to know the answers to most of these questions! This is being administered to track learning gains over the course of the semester, and to help give me an idea for the base knowledge of the class, and the concepts tested are in no way prerequisite material.

Please try your best to answer the questions accurately, as this will provide the best data, but because you are not expected to know the answers you will receive full credit for this homework assignment simply for participating, regardless of how many questions you get correct.
